Martin Hakr & team

2nd December 2006

Dear Martin,

I would like to send you a big thank you for your professionalism and efforts for making a MAC INTERNATIONAL launch such a huge success. You and your staff arranged all the services starting from the accommodation of the crew, venue search, production of the event, catering and all AV set ups, including making a DVD of the event for our international use.

I would like to say that your professional attitude and detail orientation on the preparation of the event has made it very smooth and a big success to our company. We will definitely work with your company in the near future again and you can also use our name as a reference to your new clients as well.

Very best regards
